Mountain Weather Forecast

Brecon Beacons National Park

Forecast valid from 00:00 on Tuesday 31 Aug 2021 until 23:59 on Wednesday 01 Sep 2021

Forecast Issued on Monday 30 Aug 2021 at 15:18

Confidence: High for dry and settled conditions to persist through this week. Lower confidence regarding cloud details and the extent of any overnight low cloud. Low confidence in the timing of the change to a more unsettled, wetter and windier spell of weather this weekend.

Headline for Tuesday 31 Aug 2021: Chance of a few spots of drizzle at first. Then dry and mostly cloudy.

Forecast for Tuesday 31 Aug 2021

Weather: A mostly dry and cloudy day, with low cloud, mist and the odd spot of drizzle on the summits, during the early hours and first thing in the morning. However, there will be some bright or sunny intervals during the afternoon, especially to the west of higher ground.

Chance of cloud free mountain/hill tops above 600m: 30% during the early hours, increasing to 80% by midday.

Visibility: Generally good or very good throughout. Poor in any low cloud, mist or drizzle during the early hours and during the first part of the day, although mainly in the east, with cloud bases down to approximately 400-500m.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A mostly cloudy day and a brisk north-easterly wind will make it feel cool at the summits particularly around sunrise. Therefore if you expect to spent significant time walking/hiking on peaks and summits ensure you have an extra layer.
